PROFILE

Frontend Web Developer with hands-on experience building responsive, user-friendly websites using HTML, CSS, Tailwind CSS, JavaScript, and React. Comfortable working with Firebase for backend/auth needs, managing code with Git, and deploying production-ready projects on Vercel. Focused on writing clean, efficient code and solving real-world UI/UX problems.

EXPERIENCE

Web Developer 2023 – 2025

Built and maintained responsive websites and web applications end to end.

- Developed responsive, cross-browser websites using HTML, CSS, Tailwind CSS, and JavaScript
- Built interactive UI components and single-page applications with React
- Integrated Firebase for authentication, database, and hosting needs
- Used Git for version control and collaborated on projects via GitHub
- Deployed and managed live projects using Vercel
- Handled website design and basic database administration for client projects
- Supported educational institutions with online classroom management platforms
